

The Engel Collection

Karen Engel

The Doug and Late Karen Engel Collection

Carnival glass is a piece of history, but it is more than just a color, an overlay of chemicals, a pattern, a shape, and a maker. Each piece holds the memories and stories of its owners and the homes they have graced with their beauty. Their iridescent reflection of light cast is a glimpse into the soul of a true carnival glass lover.

Karen was a true lover of carnival glass, and Doug, a true lover of Karen. Karen never grew tired of watching how morning light on the glass could change by the afternoon glow – it was like an entirely new collection she would often say. And Doug, always found a way to illuminate the carnival glass cabinets into Karen's soul. Their collection is a symbol of their love and their lives together, each piece is another part of their story.

It wasn't just the glass that Karen loved. Each (and every) piece had a story – a story about the trip to a convention, the person who owned it before, the excitement of winning a long-coveted piece, and the people she was with during this journey. It was mostly about the people.

I have not had the honor to meet most of you in the carnival glass world in person, but I know many of you through the stories Karen and Doug reminisced about over the years. I know they have been blessed to meet so many wonderful people and share so much of their lives with you.

Doug, Terry and I thank each of you for being a part of today. We hope Karen's collection brings you as much joy as it brought to Karen and our family throughout the years.

Amanda Engel, Daughter-in-law to Karen and Doug
