Our three trade marks:

This is

Catalog No. **103B**,  
Iridescent glass novelties.

For complete list of our other catalogs,  
see outside back cover.

# Important!

**Capacities** are given in liquid measurements of 16 ounces to the pint, as nearly correct as possible, but we do not guarantee them.

**Measurements,** in inches, are as nearly correct as possible, but because of the method of manufacturing, there will be a slight variation in some cases.

**Illustrations** are about  $\frac{1}{2}$  size, but the cuts cannot be mathematically correct.

**Prices and terms** are given in separate price list No. 53B.

**Colors:** Always state which color is wanted, when ordering. In order to make this easy, always read the heading of the page on which the article is illustrated. It will tell you clearly in which colors that particular article is made.

**For instance:** The heading on page 32B states, that the articles on that page are only made in Rubi-gold (M), Azur (L), and Helios (K), which means that these twelve articles are not made in Old Gold (R)

If you want to order the 2565|3-5 inch crimped berry on that page in the Azur (L) color, order it as follows: L2565|3-Azur 5 inch crimped berry, to avoid any mistake.

See pages 2B and 3B for illustrations and descriptions of the 4 iridescent colors of this catalog.

**Read above carefully!**

# CATALOG 103 B

---

---

In this catalog we publish only our iridescent glass novelties in our popular-priced 4 colors: Rubigold, Azur, Helios and Old Gold, illustrated and described on the next two pages.

However, not every piece in this catalog is made in each of these 4 colors, and we cannot agree to furnish any article in any other color than given for that article on the page on which it is illustrated, and in the price list.

**Be sure to mention the name of the color, when ordering anything from this catalog.**

A complete list of our other catalogs is given on the inside back cover of this catalog.

# When ordering from this catalog, be sure to state which of the following four colors is wanted

Some of the articles are not made in all four colors and can be supplied only in those colors, which are mentioned in this catalog under the respective illustration or at the head of the page, where it is shown.

## RUBIGOLD

### Our M glass

Crystal glass with a deep ruby iridescence on a ground of gold. Red and gold predominate, though there are flashes of many other colors.

When ordering this color, put the letter **M** before the number, and mention the word "Rubigold".

For instance: The lemonade set No. 489 (page 18B) in rubigold should be ordered, as follows:

**M489 Rubigold lemonade set.**

## AZUR

### Our L glass.

Amethyst colored glass, with green, blue, red and yellow iridescent colors.

This is the darkest one of these four colors, and of very striking appearance. When ordering this color, put the letter **L** before the number, and mention the word: "Azur".

For instance: The lemonade set No. 489 (page 18B) in azur should be ordered, as follows:

**L489 Azur lemonade set.**

## HELIOS

### Our K glass

A beautiful green glass with silver iridescence. The surface effect is that of metallic silver with shades of green gleaming through the silver.

When ordering this color, put the letter **K** before the number and mention the word "Helios".

For instance: The lemonade set No. 489 (page 18B) in Helios should be ordered, as follows:

**K489 Helios lemonade set.**

## OLD GOLD

### Our R glass

Real amber glass with a deep, rich, golden iridescent covering, which sometimes has beautiful warm tintings of red.

When ordering this color, put the letter **R** before the number and mention the words "Old Gold".

For instance: The lemonade set No. 489 (page 18B) in old gold should be ordered, as follows:

**R489 Old Gold lemonade set.**

# VERY HIGH GRADE IRIDESCENT GLASS.

IN ADDITION TO THE POPULAR PRICED IRIDESCENT GLASSWARE SHOWN IN THIS CATALOG, WE MAKE THE FOLLOWING STARTLING NOVELTIES:

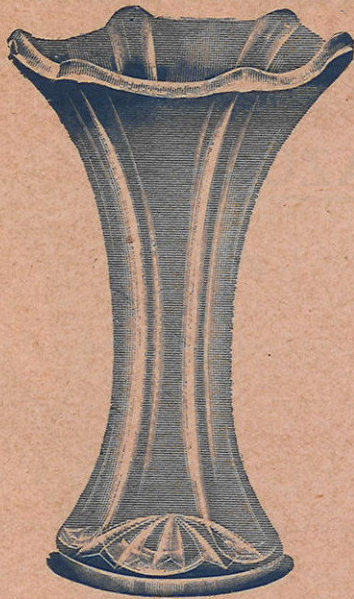

**IMPERIAL VENETIAN GLASS:** A LINE OF OPEN STOCK GLASSWARE FOR TABLE USE AND ORNAMENTAL PURPOSES. A VERY REFINED, TRANSPARENT RAINBOW EFFECT.  
(see catalog 103D)

**IMPERIAL ART GLASS:** MOSTLY ORNAMENTAL PIECES, SUCH AS VASES, FLOWER BOWLS, ETC. THESE BEAUTIFUL PIECES ARE DEEPLY COLORED, IN THOSE FAMOUS CRIZZLED SATIN EFFECTS, WHICH AS A RULE COST THREE OR FOUR TIMES AS MUCH.  
(see catalog 103G)

# LUCKY LOTS

---

---

This is the name of our famous bargains in iridescent glass assortments.

They do not contain any lamps or gas and electric shades, and no crystal glass.

These LUCKY LOTS were originally arranged by us to get rid of the odds and ends which accumulate in the course of time in as large a factory as ours is.

Later on the demand for them became so enormous that we were compelled to manufacture large amounts of staple goods to fill it. We reserve, however, the right to put in these LUCKY LOTS what we happen to have on hand at the time, and we cannot agree to furnish any special articles at the special prices of the LUCKY LOTS. Hardly two of them, even of the same number, will therefore be alike. The goods in them will be very much assorted---assorted in colors and assorted in articles---sometimes in equal quantities and sometimes in unequal quantities---but there will not be any larger quantity of anyone article in any LUCKY LOT than mentioned in the price list under that LUCKY LOT.

We divided our various iridescent glass wares in TWELVE LUCKY LOTS, and refer you for their prices to the last page in **Price List No. 53B.**

**For similar bargains in Crystal glass see  
"Crystal Jobs," in catalog No. 103A.**

# Our Other Catalogs
