FORWARD

This catalog was found in a New Orleans antique shop, with each page hung on the wall with thumb tacks. Each page carried a price tag of \$2.00. Fortunately, none of the pages had been sold. George Allen of New Orleans, Louisiana, who discovered it and recognized its value for research purposes is to be congratulated.

His persuasive bargaining abilities convinced the shop owner to sell all the pages for a reasonable amount, that he, in turn offered the book to John & Lucile Britt for use in their ongoing research into Old Carnival Glass.

HISTORY

Imperial Glass Co. of Bellaire, Ohio was formed in 1901 by a local group of investors.

Its location was just across the Ohio river from Wheeling, W.V. where the Northwood plant was already operating.

On January 13, 1904 the first piece of glass was made by Imperial. The market at that time was for lamp shades and pressed ware of all types, including tableware, tumblers, pitchers, condiment bottles, oil cruets: as well as jelly jars & lamp chimneys.

In 1909, apparently after this catalog was published, the first Carnival glass as we know it was made from the existing moulds which had previously been used for making crystal pieces.

Dear Sir:-

By the publication of this catalog all our previous quotations are withdrawn, except those on gas and electric light glasswares, which are illustrated in a separate catalog.

You will find our new prices under the illustrations in this catalog and we hope that this new departure will be of great help to you, when you make out your orders for Imperial glassware.

The information given to you on pages 3 and 190 as well as the alphabetical index on pages 188 and 189 will make it easy for you to find your way through our catalog.

For our terms we refer you to page 2.

very truly

Imperial glass company.

Edificio Central, Calle 2 piso, No. 19

Apartment 1039

MEXICO, D. F.

Terms.

All Contracts, orders and agreements are subject to strikes, lockouts, fires, floods, and contingencies beyond our control. No contract, order or agreement is considered accepted by this company till it has been approved in writing by one of its officers. All prices quoted are for immediate acceptance and subject to change without notice.

Time and cash discount.

Our terms are net 60 days or 2% for cash payment within 30 days from date of invoice, which is the date of shipment.

We cannot allow the time to date from the day when you receive the goods.

If a bill is not paid within 60 days, we shall draw for its amount.

Dating.

No invoice will be dated ahead.

C. O. D. shipment.

We do not ship any goods with draft attached to bill of lading, unless enough cash has been paid to us in advance, to pay freight both ways, so goods can be brought home without loss to us, if draft is not paid.

Manner of payments.

Each invoice is a separate transaction, and must be paid directly to Imperial glass company at Bellaire, Ohio, any payment made in any other manner is at your risk.

F. O. B. Bellaire, Ohio.

All our goods are sold f. o. b. Bellaire, Ohio (rail or river.) This does not only mean, that you have to pay the freight from Bellaire to your city, but also that whatever damage or loss occurs during transportation, through no fault of ours, is at your risk.

Extra charge for packages (barrels 50 cents each.)

We figured our prices very closely, without considering at all the cost of packages and packing.

Therefore we have to charge extra for the packages.

There will be a **separate** charge for packages on all bills for goods sold at the prices in this catalog, both when you order straight barrel lots and when you buy assorted packages.

Barrels cost at present 50 cents each, including the packing, while smaller or larger packages are charged by us at the same prices as are used by other glass manufacturers at present.

Capacities

The capacities are given in lid measurement of 16 ounces to the pint and are as nearly correct as possible, but we do not guarantee them.

Two prices for each article.

You will find under each illustration two prices.

The cheaper price is for straight barrel lots, which means an entire barrel of one article in one shape and one pattern to be shipped at one time.

The higher price is for less than barrel lots.

The reason for these two prices is that if you order straight barrel lots, we simply put the barrel out of our packed up stock into the cars, while when you order assorted packages we have to gather up the various items, frequently being forced to re-open barrels.

No allowance for breakage.

We realize that it is fully as necessary for us to give our friends good packing, as it is to give them good glass.

We employ only experienced, well trained packers and do all in our power to make them do their work in a careful manner. We furthermore use only brand new packages, made on our own premises.

Every package is examined by an inspector before it is allowed to go into the car.

We do in a word, all we can to avoid excessive breakage.

If in rare cases, it occurs nevertheless it is caused by careless handling during transportation and we cannot be held justly responsible for it.

Your claim should be made to transportation company.

When delivering your packages to the transportation company we receive their signed receipt that the goods were delivered by us in good condition, and this shipping receipt is sent to you together with the invoice for your goods.

If any packages arrive at your mill in a damaged or shaky condition, you ought to refuse therefore to accept them, unless your station agent notes the damage on the freight bill. This will establish your right to damages from the R. R. Co., if there is excessive breakage.

Shortage!

See that you receive all the packages mentioned on your bill of lading. If there is any shortage, refuse to accept the shipment, unless your station agent notes this shortage on your freight bill.

Imperial special quantity discount!

If you order 25 barrels, or more, of anything made by us, to be shipped at one time, we allow you a discount of 5%.

If you order 200 barrels, or more, of anything made by us, to be shipped at one time, we allow you a discount of 10%.

These special quantity discounts apply to the glass only, and not to the packages.

General plan of this catalog!

The illustrations in this catalog are arranged as follows:

Pages in catalog		Pages in catalog		Pages in catalog	
4 to 17	tea sets	35	sugar shakers and bitter bot'l's	112 to 115	footed ice creams and footed jellies
"	butter dishes in sets	36 to 37	salts and peppers	116 to 123	footed bowls
"	sugar bowls "	38 to 39	molasses cans	124 to 131	punch bowls and punch sets
"	cream pitchers "	40 to 41	oil bottles	132 to 136	salads and comports
"	spoon holders "	42 to 44	water bottles and wine bottles	137 to 151	berries in berry sets
18	odd butter, honey and cheese dishes	45 to 63	pitchers	152 to 165	odd berries and nut bowls
19 to 21	sugar and cream sets	64 to 65	trays for water and wine sets	166 to 167	handled berries
22 to 23	celerics, pickle and milk jars	66 to 71	water and wine sets	168 to 171	pickles, candy trays and celery trays
24	cracker jars	72 to 75	jelly tumblers	172 to 175	plates
25 to 26	rose bowls	76 to 93	tumblers	176 to 178	salvers
27 to 33	vases and bouquets	94 to 95	beer mugs	179 to 187	lamps
34	candle sticks and small wares	96 to 109	stem ware		
		110 to 111	finger bowls and custards		

Two kinds of glass!

We make two kinds of glass. In first place our famous Imperial mirror glass, used by us principally for our high grade wares, which have established our reputation for quality; and in second place, our Utility glass, used by us for certain wonderful specialties at very low prices for large and rapid sales.

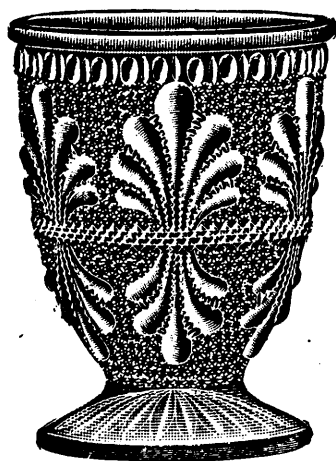

Our Utility glass is made out of exactly the same materials as our Imperial mirror glass and it is just as strong and serviceable, but, because of the different process of melting, it is occasionally not quite as brilliant and pure in color, though frequently there is hardly any difference. The goods made in this Utility glass are especially fit for special sales, when large pieces are wanted at small prices.

In this catalog the pieces made in Utility glass are distinguished by the $\frac{1}{2}$ behind the numbers, whilst the numbers of the articles made in Imperial mirror glass do not show this $\frac{1}{2}$. For instance the 54 $\frac{1}{2}$ set shown on page 5 is Utility glass, whilst the No. 261 set on the same page is Imperial mirror glass.

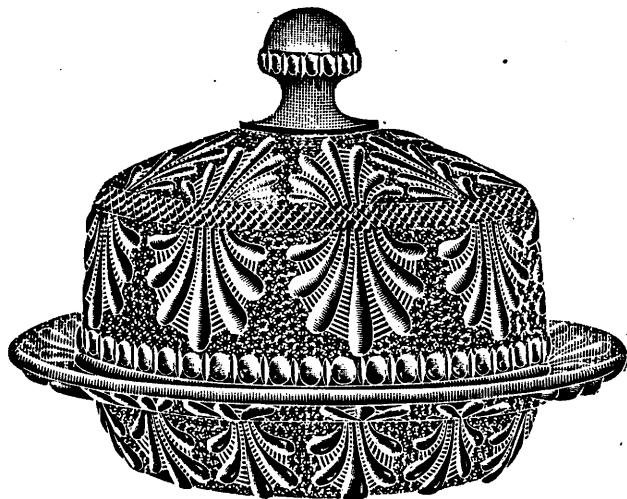

From now on we shall make only those articles in Utility glass which show the $\frac{1}{2}$ behind the number in enclosed catalog, and all the balance will be made only in Imperial mirror glass.

Use the alphabetical index on pages 188 and 189 when looking for special articles.

Our cheapest tea sets.

No. 5 $\frac{1}{2}$ spoon.
packed 10 dozen in barrel.
barrel lots, \$0.20 per doz.
smaller lots, 0.25 per doz.

No. 5 $\frac{1}{2}$ butter and cover.
packed 5 dozen in barrel.
barrel lots, \$0.50 per doz.
smaller lots, 0.65 per doz.

No. 5 $\frac{1}{2}$ cream.
packed 9 dozen in barrel.
barrel lots, \$0.25 per doz.
smaller lots, 0.30 per doz.

No. 5 $\frac{1}{2}$ sugar and cover.
packed 6 dozen in barrel.
barrel lots, \$0.40 per doz.
smaller lots, 0.50 per doz.

No. 5 $\frac{1}{2}$ tea set.
consisting of 4 articles shown.
packed 2 dozen sets in barrel.
per dozen sets in barrel lots, \$1.35
per dozen sets in smaller lots, 1.75

No. 248 $\frac{1}{2}$ sugar and cover.
packed 7 dozen in barrel.
barrel lots, \$0.50 per doz.
smaller lots, 0.65 per doz.

No. 248 $\frac{1}{2}$ tea set.
consisting of 4 articles shown.
packed 2 dozen sets in barrel.
per dozen sets in barrel lots, \$1.50
per dozen sets in smaller lots, 2.00

No. 248 $\frac{1}{2}$ spoon.
packed 12 dozen in barrel.
barrel lots, \$0.20 per doz.
smaller lots, 0.30 per doz.

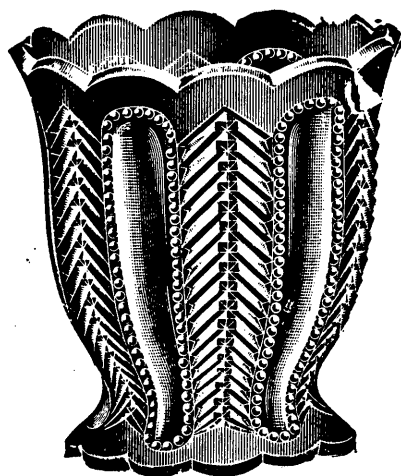

No. 248 $\frac{1}{2}$ butter and cover.
packed 5 dozen in barrel.
barrel lots, \$0.55 per doz.
smaller lots, 0.70 per doz.

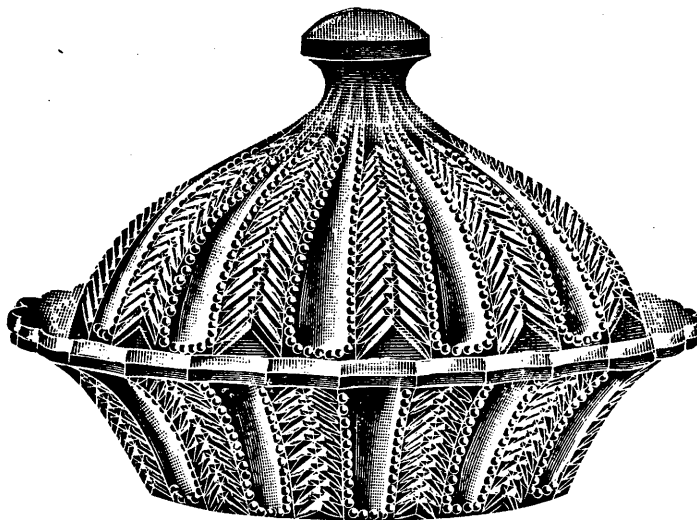

No. 248 $\frac{1}{2}$ cream.
packed 10 dozen in barrel.
barrel lots, \$0.25 per doz.
smaller lots, 0.35 per doz.

These are half size cuts. For alphabetical index see pages 188 and 189.

Very cheap tea sets.

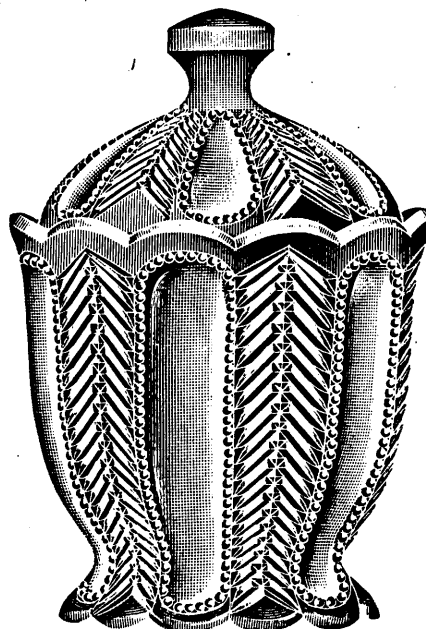

No. 54 $\frac{1}{2}$ spoon.
packed 10 dozen in barrel.
barrel lots, \$0.25 per doz.
smaller lots, 0.30 per doz.

No. 54 $\frac{1}{2}$ butter and cover.
packed 4 dozen in barrel.
barrel lots, \$0.67 per doz.
smaller lots, 0.80 per doz.

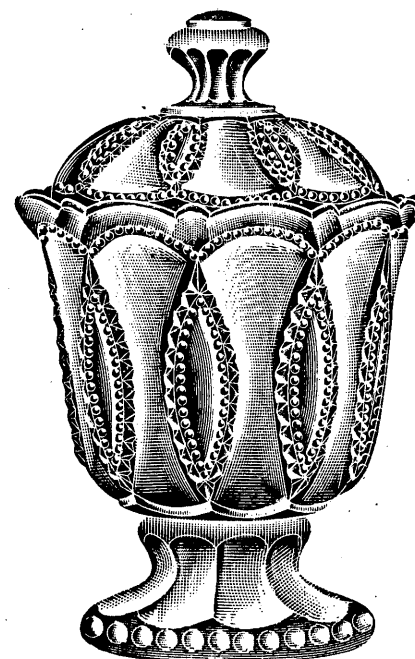

No. 54 $\frac{1}{2}$ cream.
packed 9 dozen in barrel.
barrel lots, \$0.35 per doz.
smaller lots, 0.40 per doz.

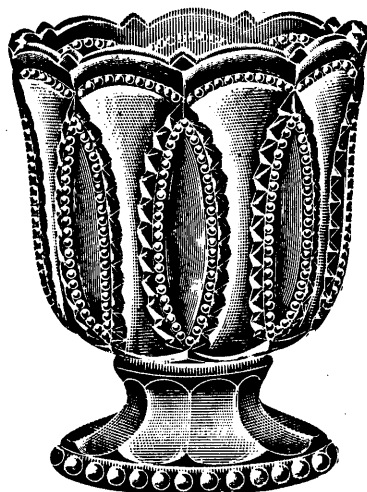

No. 54 $\frac{1}{2}$ sugar and cover.
packed 6 dozen in barrel.
barrel lots, \$0.58 per doz.
smaller lots, 0.70 per doz.

No. 54 $\frac{1}{2}$ tea set.
consisting of 4 articles shown.
packed 1 $\frac{1}{2}$ dozen sets in barrel.
per dozen sets in barrel lots, \$1.85
per dozen sets in smaller lots, 2.20

Every tumbler
and
every piece of
stemware,
shown
in this catalog,
are pressed!

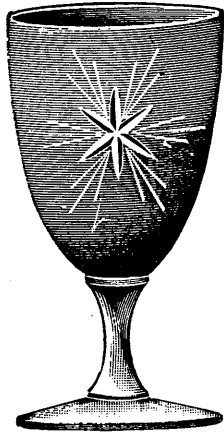

In spite of their low prices,
some of them look and are as
beautiful as blown goods, but
they are all pressed, every piece
of them.

We make several other patterns in large lines in addition to the six shown on pages 190 and 191. For finding the different articles, made in one pattern, use our alphabetical index on pages 188 and 189.

Sample=Assortment.

Do not put this catalog down without ordering one of our
100 piece sample assortments,
containing one hundred different pieces, always including our latest novelties.

The price of the complete assortment, including 2 barrels,
is **\$10.00**. Usual terms. (see page 2.)

We put up these assortments, to give new customers a chance to look at actual glass samples with a minimum risk to themselves, but even if you order other goods, it will pay you to add one of these assortments to your order for future use.

Only one of above assortments sold to one customer.

**Buy in solid barrel lots as much as possible,
and save cost of repacking.**

If you are interested in gas and electric glassware, we shall be glad to send
you, free of charge, at your request, one of

Our special catalogs for gas and electric glassware.

For quality :

our Imperial mirror glass.

For price :

our utility glass.

By ordering solid barrel lots

you will save

the cost of repacking.

Quality
is
our policy.

We issue a special catalog
for gas and electric glassware.
